Asia IX:
Biggest Asia Peering!

Dive into the fast lane of connectivity with DCConnect's Asia IX! Our robust network infrastructure is your ticket to meeting and exceeding targets in Southeast Asia.

Achieving your business goals and staying ahead of the competition is not just a goal; it's a guarantee. Join the connectivity revolution with DCConnect's Asia IX and propel your business into the digital fast lane. Our comprehensive network infrastructure ensures not only high-performance connectivity but also provides a strategic advantage in navigating the dynamic landscape of Southeast Asia.

Trust us to be your partner in success, providing a reliable and secure foundation for your business operations in this thriving region. Unleash the power of seamless collaboration and real-time data exchange – DCConnect's Asia IX is not just a network; it's your gateway to unparalleled business agility and growth in the heart of Southeast Asia.

About DCConnect

Welcome to DCConnect Global, your premier network service provider dedicated to delivering unparalleled connectivity and driving digital transformation.

We offer premium internet services that empower businesses and enterprises through our innovative Network-as-a-Service (NaaS) wholesale and white-labeled product – a first-of-its-kind in the industry. With DC Gateway, we enable efficient interconnection of diverse Autonomous Networks using open APIs.

At DCConnect Global, we specialize in delivering Internet Services, Global Connectivity, and Telco Automation, designed to streamline your operations and fuel your success in the digital realm.

Benefits

Scalability
Effortless connect to multiple IXs and on-demand, enjoying the flexibility to scale your bandwidth according to your needs.

Cost Optimization
Eliminate the need for high upfront investments and pay only for the required bandwidth and connections.
Improved Network Performance
Facilitate access to a high-speed, low-latency interconnection for your applications.

Enhanced Customer Experience
Elevate customer satisfaction by providing faster access to the applications for your end users.

Asia IX Topology

We are efficiently connected to major Internet exchange points with a comprehensive solution that combines centralized hubs, MPLS-enabled connectivity, dedicated Layer 2 links, and scalability features to enhance network performance. It's more than a connection; it's a pathway to a superior digital experience for your business and end-users alike!

Technical Specifications

Service Parameter	Description
Palform Type	We operate on a highly resilient meshed Layer 2 platform, ensuring robust and efficient connectivity
Protocol Support	We support both IPv4 and IPv6 peering, providing a smooth experience for networks utilizing either protocol
Route Server Integration	Connect directly into the two DCConnect Route Servers, optimizing the efficiency of data exchange within the network
Security	24/7 NOC Support ensuring rapid response and resolution to any issues

Let's Work Together

Your business deserves the best connectivity solutions, and DCConnect is here to help you achieve those goals. Let's work together and find the right solutions!
